WORK EXPERIENCE

Front-End Web Developer (Freelance)

MarkDev | Aug 2025 – May 2026

- › Deliver responsive, cross-browser websites for clients using HTML5, CSS3, JavaScript and Tailwind CSS
- › Built reusable UI components and templates, reducing development time by around 25%
- › Collaborate with cross-functional teams to deliver projects on time and to high-quality standards
- › Manage client communication, requirements and end-to-end freelance project delivery

Front-End Developer (Intern)

IntelIXSoft | Jul 2024 – Aug 2025

- › Managed the full front-end workflow — from design hand-off through to deployment
- › Converted UI/UX designs into responsive, pixel-accurate web pages
- › Worked with senior developers to optimize web performance and improve user experience
- › Contributed to real-time projects, strengthening front-end design and debugging skills

Web Development Trainee

PCI Learning Institute, Lahore | Jun 2023 – Jul 2024

- › Trained in modern web technologies including HTML, CSS, Tailwind CSS and JavaScript
- › Built responsive websites and small web applications through hands-on projects
- › Developed projects to strengthen problem-solving and design-to-code conversion skills

EDUCATION

Bachelor of Computer Science

Islamia University of Bahawalpur | Sep 2022 – May 2026

- › Building and testing interactive web pages as part of computer science coursework

Matriculation & Intermediate

Govt High School (Matric) · APS College (Intermediate) | Sep 2017 – Aug 2021

Projects

AI Code Mentor

AI-powered coding assistant that analyzes code, identifies issues, explains errors, and provides improvement suggestions.

AI Site Maker

AI-powered website builder that converts natural-language requirements into website structure and content.

AI Website Doctor

AI-powered website that analyzes UI/UX, performance, accessibility, SEO, and code quality and provides recommendations.
